

## Legislation

It's an honor to serve the citizens of Davidson, Wilson and Cheatham Counties in the U.S.

House of Representatives. Each year, Congress votes on hundreds of issues that impact us all - Social Security & Medicare, the federal budget, defense, technology, education, transportation and more. I am working hard to promote policies that will improve our quality of life here at home.

Below are links to a database of bills in Congress that I am currently supporting.

If there is a bill or an idea for legislation you would like me to consider, please contact my office at 615-736-5295 or send me an email .
